## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : Su Yong PARK

Group Art Unit : 1732

Appl. No. : 10/760,399

Examiner : Allan R. KUHNS

Filed : January 21, 2004

Confirmation No. : 1295

For : METHOD OF MANUFACTURING LOW PRESSURE INJECTION

**ELECTION WITH TRAVERSE**

Commissioner for Patents

Sir:

This paper is responsive to the Requirement for Restriction mailed from the Patent and Trademark Office April 26, 2006, in the above application. Inasmuch as this election is being submitted by the one-month shortened statutory period originally set in the Office Action to expire on May 26, 2006, no extension of time is believed necessary. However, if any extension of time is deemed to be necessary, the same is hereby requested and the Patent and Trademark Office is authorized to charge any extension of time fees and any other fees necessary for maintaining the pendency of this application to Deposit Account No. 19-0089.

**Election**

Applicant elects, with traverse, the invention identified by the Examiner as Group I, drawn to a method of manufacturing a mold, including claims 1-4.

**Traverse**

Applicant respectfully traverses the Restriction Requirement. The Restriction Requirement has characterized the inventions of Groups I (claims 1-4) and II (claims 5-7) as method of making a mold and product made by using that mold. The Restriction Requirement has stated that, "[t]he inventions are distinct because the imputed product structure can be made by using a mold formed by the conventional process described in the specification from page 1, line 29 to page 2, line 18."

Even if the Examiner's characterization of Groups I and II as defining a method of making a mold and product made by using that mold were to be considered proper, Applicant respectfully requests that all of the inventions defined in claims 1-7, nevertheless, be examined in the instant application, pursuant to the guidelines set forth in M.P.E.P. § 803. That is, the Examiner is respectfully requested to reconsider the requirement and find that there would not appear to be a "serious burden" on the Patent and Trademark Office in examining claims directed to the non-elected inventions since the Examiner will likely have to search in similar areas (i.e., classes 264 and 428) for both Groups.

Thus, It would appear that the search for the inventions identified by the Examiner would be coextensive or at least significantly overlap. That is, if the Examiner were to perform a search for the invention of Group I, there would not appear to be a serious burden to examine the invention of Group II. For this reason, and consistent with Office policy as set forth in M.P.E.P. § 803, Applicant respectfully requests that the Examiner reconsider and withdraw the Requirement for Restriction.

For at least the foregoing reasons, it is submitted that the Requirement for Restriction in this application is improper and it is respectfully requested that it be reconsidered and withdrawn.

Should there be any questions, the Examiner is invited to contact the undersigned at the below listed telephone number.

Respectfully Submitted,  
Su Yong PARK
